

## Guidance for ARCP requirements during 2010 to 2021 curriculum transition years

Year of training in August 21	Transition arrangement	ARCP requirements at end of year (EOY)	ARCP requirements for end of subsequent year(s)
ST5, 6 and 7 with CCT date up to the 31 January 2024	Staying on 2010 curriculum	As per 2010 curriculum requirements	As per 2010 curriculum requirements
ST5 who started this year in August 21 or whose CCT is predicted to be after 31 January 2024  <i>ARCP requirements determined by Transition options A, B or C</i>	<i>Option A:</i> All of stage 2 'top up' completed in year ST5	Final FRCA pass Stage 2 'top up' training completed in full Eligible for EQ2	Progress with stage 3 and SIAs
	<i>Option B:</i> All of stage 2 'top up' completed, with the exception of ICM	Final FRCA pass Stage 2 'top up' completed with exception of ICM Some evidence on LLp for stage 3 capabilities	Completion of ICM (preferably by end of ST6) Eligible for EQ2 once ICM completed Progress with stage 3 and SIAs
	<i>Option C:</i> Transition requiring more flexibility from higher 2010 to stage 3 2021	Final FRCA pass Stage 2 'top up' completed <i>with exception of previously agreed areas of training.</i> All stage 2 'top up' generic professional domains should be satisfactorily evidenced Some evidence on LLp for stage 3 capabilities	Outstanding areas for stage 2 'top up' to be completed as soon as feasible Eligible for EQ2 once these are completed Progress with stage 3 and SIAs

Year of training in August 21	Transition arrangement	ARCP requirements at end of year (EOY)	ARCP requirements for end of subsequent year(s)
ST4 who started this year between August 2020 and August 2021	Completion of Intermediate training on 2010 curriculum for ST 4 Stage 2 'top up' for ST5	EOY ST4: Completion of all intermediate level units of training as per 2010 curriculum requirements  ILTC or ILPR can be issued	EOY ST5: Final FRCA pass  Stage 2 'top up' completed  Eligible for EQ2
ST4 who started this year in August 21  ST3 who started this year between August 20 and February 21  <i>ARCP requirements determined by transition options A or B</i>	<p><i>Option A:</i> Anaesthetists in training who have moved to the 2021 curriculum and are doing a hybrid of mostly stage 1 'top up' but also some stage 2</p> <p>This option is better for those who have not done specialty areas of practice like cardiac, neuro, paed in ST3</p>	<p>Completion of stage 1 'top up' training</p> <p>Or stage 1 'top up' partially completed and some stage 2 capabilities also completed</p> <p>Primary FRCA must be completed in full by end of ST3</p>	<p>EOY ST4: stage 1 'top up' should be completed</p> <p>In addition there should be progress with stage 2 capabilities.</p> <p>EOY ST5: All stage 2 HALOs should be completed and Final FRCA passed. A stage 2 certificate can then be issued</p>
	<p><i>Option B:</i> Anaesthetists in training who have stayed on the 2010 curriculum to complete intermediate level training</p> <p>This option is better for those who have done specialty areas of practice like cardiac, neuro, paed in ST3</p>	<p>If EOY ST3 then progress with intermediate level units of training.</p> <p>If EOY ST4 then completion of all intermediate level units of training</p> <p>ILTC or ILPR can be issued</p>	<p>For subsequent EOY 5 stage 2 'top up' should be completed</p> <p>Eligible for EQ2</p>
ST3 who started this year in Feb 21 or those who started in August 20 but who have had a significant period of absence eg maternity leave, sick leave, shielding	Anaesthetists in training have moved to 2021 curriculum may be doing stage 1 'top up' or a hybrid of mostly stage 1 'top up' but also some stage 2	<p>Completion of stage 1 'top up' or stage 1 'top up' partially completed and some stage 2 capabilities also completed</p> <p>Primary FRCA must be completed in full by end of ST3</p> <p>If anaesthetists in training in this group have continued on the 2010 curriculum to complete Intermediate Level training then follow for Option B above</p>	<p>Stage 1 'top up' should be completed by the end of ST4 year if not completed before.</p> <p>In addition there should be progress with stage 2 capabilities.</p>

Year of training in August 21	Transition arrangement	ARCP requirements at end of year (EOY)	ARCP requirements for end of subsequent year(s)
ST3 who started this year in August 21 or February 22	Anaesthetists in training have moved to 2021 curriculum and are doing stage 1 'top up' or may be doing a hybrid of mostly stage 1 'top up' but also some stage 2	<p>Completion of stage 1 'top up' training</p> <p>Or stage 1 'top up' partially completed and some stage 2 capabilities also completed</p> <p>Primary FRCA must be completed in full by end of ST3</p>	<p>Stage 1 'top up' should be completed by the end of ST4 year if not completed before</p> <p>In addition there should be progress with stage 2 capabilities</p>
CT2 (ACCS CT3) who started this year in February 21	Anaesthetists in training have continued on 2010 curriculum	<p>ARCP decision guidance for this group:</p> <p>All units of training for core level completed. Primary FRCA pass: outcome 6</p> <p>Some units of training missing but full Primary: outcome 10.1</p> <p>All units of training completed but only Primary MCQ pass: outcome 10.1</p> <p>Some units of training missing and Primary MCQ pass only: outcome 10.1</p> <p>All units of training completed but no part of Primary passed: outcome 2</p> <p>Some units of training missing and no part of Primary passed: outcome 2</p>	

Year of training in August 21	Transition arrangement	ARCP requirements at end of year (EOY)	ARCP requirements for end of subsequent year(s)
CT2 (ACCS CT3) who started this year in August 21	Anaesthetists in training have moved to 2021 curriculum and are continuing with stage 1	<p>IACO A completed by end of CT2 (ACCS CT3)</p> <p>If IACO A has not be completed then outcome 2 should be issued</p> <p>Progress with stage 1 capabilities in both the generic professional and clinical domains.</p> <p>There should be evidence in all domains with the exception of ICM if this has not been completed</p>	<p>EOY CT3 (ACCS CT4):</p> <p>All stage 1 HALOs completed</p> <p>Primary FRCA pass</p>
		<p>If anaesthetists in training in this group have stayed on the 2010 curriculum to complete core Level training then follow guidance as set out for CT2 (ACCS CT3) who started this year in Feb 21 above</p>	
CT1 (Anaesthetics, <u>not</u> ACCS) who started this year in Feb 21	Anaesthetists in training have moved to 2021 curriculum and are continuing with stage 1	IAC by end of year and progress with stage 1 capabilities, ie, some evidence in terms of supervised learning events, personal activities, or reflections across a number of domains both generic professional and specialty specific domains	<p>EOY CT2 (Anaesthetics, <u>not</u> ACCS):</p> <p>IACO A competed</p> <p>Progress with stage 1 capabilities in both the generic professional and specialty specific domains</p> <p>There should be evidence in all domains with the exception of ICM if this has not been completed</p>
ACCS CT1 and CT2 anaesthetists in training on 2021 curriculum		<p><a href="#">These anaesthetists in training should follow the ARCP decision guidance set out on the ACCS website</a></p>
