	Supervised Learning Events (formative assessments)		
CBD	Adequate breadth and quality of assessments must be conducted to allow trainers to make valid judgements of the doctor's performance across all areas of the curriculum (see the assessment blueprint). The focus should be on the quality of feedback and evidence of learning from assessment . The emphasis is on the quality of assessment rather than numbers, and incorporating feedback from multiple assessors. Not pass/fail.

	Doctors must have met the required capability levels for each HiLLO for the stage of training as indicated by the capability blueprint (see the HiLLOs Grid) and evaluated by the ES to progress to the next stage of training or to the award of CCT. Educational Supervisors will not be able to complete these without sufficient evidence (e.g. adequate numbers, variety and quality of SLEs, a diverse educational portfolio and logbook of procedures). For doctors who are mid-stage, then the requirement is to demonstrate engagement with spiral learning and progression in all the HiLLOs, without necessarily reaching the required capability level for the end of stage.
